City of Forest Hills Municipal Code
Title 14, Chapter 2
Municipal Zoning Code

Construction dumpsters and construction trailers. The placement of a temporary construction dumpster or other trash receptacle or construction trailers shall comply with the following standards:

- (1) Be located to the side or the rear of the site, to the maximum extent practicable;
- (2) Be located as far as possible from lots containing existing development;
- (3) Be located outside of tree protection fencing and the dropline of existing trees;
- (4) Not be located within a floodplain, floodway, or otherwise obstruct drainage flow; and
- (5) Not be placed within five feet (5') of a fire hydrant.

Applicant attests all statements above are true and is aware of the rules:
